Press Release

Design Month 2020 cancelled

Due to the corona virus pandemic, Creative Industries Styria, as organizer of the Design Month Graz, has decided to cancel the festival this year. The Design Month Graz was originally scheduled for the period from May 8 to June 7, 2020.

The Design Month has established itself as an annual fixed point in the international event calendar. The 12th edition of the festival, which should have taken place in Graz from May 8 to June 7, is now being cancelled as an inevitable consequence of the current exceptional circumstances.

Individual exhibitions and projects that were already well advanced in their planning and preparation will be presented in the Design Month Graz 2021. The same applies to the planned "Better Future" theme, which is becoming even more relevant due to current events.

To the creative industries of Styria

Creative Industries Styria is currently hard at work to providing the Styrian creative industries with the latest information on grants and benefits and is available to you online for your questions and inquiries.

Design exchange and networking is still taking place online: Creative Industries Styria is currently providing information on the latest projects on our website www.cis.at as well as on [Instagram](#) and [Facebook](#).
